Siouxland Aging Services' Advisory Council will be hosting five Town Hall meetings in January and February. As advocates for seniors, members of the Advisory Council need to hear your comments on the needs of seniors within each county. You are invited to come, listen, and comment on senior services and their availability within your community. In addition to the time for discussion, you may peruse booths provided by area senior service providers, so that you can find out more about the variety of services available for you or a loved one. The sessions are free. Seniors, their caregivers, family members, community members and elected officials are encouraged to attend. Service providers may contact Siouxland Aging Services at 712-279-6900 to make arrangements for a booth.
