Case Management for the Frail Elderly

**Our goal is to help you remain
safely in your home.**

Case Management Services for the Frail Elderly

The Case Management Program was developed by Siouxland Aging Services (Area IV Agency on Aging) to inform seniors and their families about available Home and Community Based Services. Family and friends may not always be available to help organize the services

that are needed. If you or someone you know needs information or assistance, we can be

there to help! Call our agency and ask to speak to a Case Manager about your specific situation and your current needs.

If you wish to proceed, a Case Manager will visit your home to do an assessment of your health and living situation.

A Case Manager will work with you to develop a personalized plan of care.

Some services may have a cost, others may not. Your Case Manager will help estimate those costs, discuss your options, and help you explore possible funding sources if you are unable to afford the service.

WHO QUALIFIES FOR THE CASE MANAGEMENT PROGRAM?

1. You must be 60 years of age.
2. Reside in Woodbury, Plymouth, Monona, Cherokee or Ida County.
3. Have a need for two or more services from more than one agency.

The Case Management Program offers you:

- An assessment of your current health and living situation.
- A meeting for your family and professionals who want to help you remain in your home.
- A plan to keep you at home—if your situation changes, we will be there to help find what's right for you.
- A Professional Case Manager to continuously guide you through the services and programs in your community. We will answer your questions and help you make calls to the providers you have requested.
- Help in estimating costs of services, including help in finding available funding sources to help pay for services, for which you may qualify.

SERVICES AVAILABLE

* **The services listed here are not all inclusive and are subject to change.**

* **Not all services are available in all counties.**
