

Press Release

Town Halls Meetings on Senior Needs and Services

Siouxland Aging Services' Advisory Council invites seniors, their caregivers, family members, professionals, community members and elected officials to attend their county's Town Hall meetings on senior needs in September and October. As advocates for seniors, members of Siouxland Aging Services Advisory Council need to hear your comments on the needs of seniors within each county. You are invited to come, listen, and comment on senior services and their availability within your community. In addition to the time for discussion, you may visit many booths provided by area senior service providers, so that you can find out more about the variety of home and community based services available for you or a loved one. The sessions are free. Service providers may contact Siouxland Aging Services at 712-279-6900 to make arrangements for a booth.
